LABOR SURVEY BEING HELD
IN BETHEL AND LOCKE MILLS
MONDAY-TUESDAY, JULY 25-26
A labor survey will be held in the communities of Bethel and Locke Mills at each community's town hall on Monday, July 25, and Tuesday, July 26, from the hours of 10 a. m. until 3 p. m. on both dates. The purpose of the survey is to determine the number of people unemployed and seek work in the area. The questions asked, cover several categories of work pattern, such as the desire for full time employment, part time employment, work to be done in the home, and if one has a skill used as a hobby that could be used as a sub contract level, for employment at the home workshop. Also information is needed to determine if training in shoe-making, wood-working, electronics, or any other trade would be of interest to those in the area were it to be offered. The need for this information is great. If new industries wish to come into the Oxford County area, or if existing industries find the need to expand, the availability of employees will be a determining factor. A questionnaire will be available at each town hall during the hours stated. Simply fill in the few questions asked on the form and pass it back to the young person in charge. There is no obligation involved and participating is voluntary. However your cooperation will be greatly appreciated by the communities.

CONNECTICUT CYCLIST
IS MOLLYCOKETT WEEK END GRAND PRIX WINNER
A one minute win in Mollycokett Criterium by Rudy Sroka of New Haven, Connecticut, laid the foundation for an overall victory in the Bethel Grand Prix, a two day bicycle race. On Saturday the riders contested a 25 mile mile criterium in the morning and a five and one-half mile time trial over Paradise Hill in the afternoon. The event concluded with a 60 mile road race on Sunday morning. Ninety-seven riders from the northeastern United States and Canada entered the races which were sponsored by the Bethel Lions, The Bethel Inn, and the Cyclery of Rumford.

A powerful surge from the field at the half-way point ultimately resulted in a one minute victory for Sroka in the criterium. The large enthusiastic holiday crowd was treated to a beautiful display of solo riding as he navigated the tight 8 course in a consistent two minutes flat, lap after lap, to finish in the excellent time of 60:02. A 23 second margin in the time trial virtually wrapped up the overall victory for Sroka, giving him a ninety-seven second lead as the riders left the top of Mill Hill for the final 60 mile stage on continued on Page Four

Meeting at the Andover Elementary School on Monday evening of this week, the S. A. Miss Plonski received her Bachelor of Arts in Music Education from Manhattanville College in New York in 1977. He said he had sent a letter to elementary school children will be enrolled at Telstar, and to members of the faculty, in which he set forth goals which he hoped were achievable in the 1977-78 academic year. He said that he would encourage an increased parental involvement with the school's program. Cliff Wing, elementary supervisor, said that he had been becoming acquainted with the teaching principals of the five elementary schools of the district, interviewing candidates for positions in district schools, and familiarizing himself with curriculum offerings both current and those that are planned for implementation in the fall. Mr. Smith reported that there will be an Administration Council Workshop held on July 26-27-28. Participants will be the superintendent, elementary supervisor, adult education director, Telstar principal, Middle School principal, and the five elementary school teaching principals. ANOTHER GENERATION OF TIMBER WORK IN HASTINGS

Timber cutting is admittedly a common occurrence in and around Bethel. With improved methods and modern equipment for tree harvesting, one would be hard put to discover anything unusual about the activity. However for anyone traveling south on Rt. 113 between the end of March and April 15, such was not the case. At the site of the once-prosperous Hastings Village, center for the Wild River Lumber Co. (1891) and later the Hastings Lumber Co. (1899), and since 1918 a part of the White Mountain National Forest, the sounds and smell of spring cutting were reactivated, if only temporarily.

Near the meeting place of Evans Brook and Wild River, on ground that once supported a saw mill, a wood alcohol mill, a post office, store, blacksmith shop, a birch mill and several boarding houses, not to mention a number of freight sheds for the Wild River Railroad, the removal of some 70 cords of wood, mainly white spruce with a scattering of pine and a few hardwood trees, was being carried on by members of a local family that for three generations has been connected with the Hastings area. Even more unusual was the fact that nearly all of the power to yard the wood was generated by horses!

Three men, Wayne, Robert and Joseph "Joe" Taylor, grandsons of Edward Taylor who moved his family to Hastings in 1904, were among those working for Larry G. Smith, Sr., who was recently awarded the right to cut and remove certain trees previously marked by the Forestry Service. Much like their father, the late Harry Taylor of Gilead, who at age 14 went to work as a cook in a nearby lumber camp run by his brother Howard, the Taylors became immersed in the task of removing trees from an area first planted to spruce in 1930.

According to a representative of the Evans Notch Ranger Station, a number of strict requirements had to be met both before and during any cutting operations at Hastings. Because of its proximity to Hastings Campground, the stand could not be thinned as much as usually carried out, and trees would be left at an average

distance of 15 feet from each other. They also explained however, that some adjacent areas have been thinned as many as three times in years past with a 10-to-20-year period between tree harvests. One of the restrictions at the recent cut was that equipment used to remove trees from the dense stand at Hastings could be no wider than five feet. Naturally the answer to the problem was to use horse-power. With the able assistance of Harry Hutchinson, a teamster from East Bethel, Bob Harkins as yardman and David Head who did the trucking, the task was quickly attended to. For a brief period, methods more associated with Hastings a century ago were made full use of in meeting present-day standards for the careful management of timber stands within an ecologically and aesthetically delicate area. As time passes, the revitalization of such time-tested procedures may indicate a more careful and yet productive use of local resources.

ROBERT TAYLOR does some quick repair work to a loose horse shoe while the customer waits patiently.

WALKING WITH JESUS CHRIST
This strange carpenter of Gal-
ilee who steps across twenty cen-
turies and breaks into our lives
even today, "who is He?" The
Pharisees of older days, said "The
Son of David" (Matthew 22:42);
John the Baptist said: "Behold
the Lamb of God" (John 1:29).

The constitution of the New
England Confederation said:
"whereas we all come into these
parts of America with one and the
same end and aim namely to ad-
vance the Kingdom of Our Lord
Jesus Christ" and to enjoy the
liberties of the Gospel in purity
with peace."

"Our Lord Jesus Christ"
The Bible, the Word of God tells
us in Titus 1:4 "The Lord Jesus
Christ our Saviour." In 2nd Corin-
thians 4:5 it says: "Christ Jesus
the Lord."

Yes, today 2000 years after He
built His Church—He's the same
today and forever will be. He calls
each of us: Revelations 3:20—"Be-
hold I stand at the door and knock,
if any man hear my voice, and
open the door (of your heart), I
will come into him, and will sup
with Him, and He with Me."

OXFORD COUNTY S. W. C. D.
IS FIRST PLACE WINNER
IN 30th GOODYEAR PROGRAM

Oxford County Soil and Water
Conservation District was select-
ed as Maine's first place winner
in the 30th annual Goodyear Av-
ards Program.

An independent judging com-
mittee gave top honors to the dis-
trict for its achievement in re-
source management and develop-
ment according to Ray Oviatt,
awards program director. The con-
test is sponsored by the Goodyear
Tire & Rubber Company in coop-
eration with the National Associ-
ation of Conservation Districts (N
ACD).

Charles A. Fillebrown, Water-
ford, named by the District as its
outstanding cooperators, and Nor-
ris Conant, Canton board chair-
man, will represent the winning
district on the grand award tour,
an expenses-paid, vacation trip to
Goodyear Farms and Wigwam re-
sort, Litchfield Park, Ariz., in De-
cember.

They will be joined by repre-
sentatives of 62 other first place
districts throughout the United
States.

In addition, plaques will be pre-
sented to the winning district and
the runner-up district at a meet-
ing of the Maine Association of
Conservation Districts. The out-
standing cooperators with all the
competing districts also will be
honored.

Southern Aroostook Soil and
Water Conservation District in
Maine is the runner-up in Maine
its outstanding cooperators, is Con-
rad Merry, Sherry Mills.

Somerset County SWCD, a win-
ner within the past five years and
hence ineligible to repeat, was
named an Honor District in rec-
ognition of its continuing excel-
lence.

TOWN MANAGER'S COMMENTS

continued from Page One

George Nickerson of GAN Sanita-
tion to discuss possible hours of
operation that could be used when
the town converts to a landfill
method of solid waste disposal.

Several alternatives for operating
hours were discussed as was the
possibility of closing on both
Sunday and Monday instead of
closing just Monday. The major
factor in keeping landfill operat-
ing costs down is limitation on
the number of days per week the
facility is open. We would wel-
come citizen comments regarding
possible operating hours at the
landfill.

The Board voted to proceed with
the West Bethel railroad crossing
improvement plans as had been
outlined and discussed at their
meeting in West Bethel, June 27.

In other actions, the Board ap-
proved a pole permit for Central
Maine Power Company, signed a
lease renewal with the Bethel
Savings Bank for the Town Of-
fice, appointed the Town Manager
as Tax Collector and approved the
final contract payment of \$2,000
to the Sewall Company.

The next regular meeting of
the Selectmen will be Monday eve-
ning, Aug. 15.

On Thursday evening, July 21,
the Board of Selectmen will meet
jointly with members of the Air-
port Advisory Committee to in-
terview consultants interested in
undertaking the Master Plan
Study for Col. Dyke Field.

A Superior Court trial was held
this week in South Paris on the
suit made against the Town by
Harold Clukey. This suit was
brought as a result of his airplane
being destroyed by fire at the air-
port in March of 1975. The jury,
after an hour of deliberation,
found for the Town of Bethel.

COUNTY MINERAL AND GEM
ASSOCIATION HONORED FOR
"TEACHING BY SHARING"

At the monthly meeting of the
Oxford County Mineral and Gem
Association, held at the Moses
Mason House in Bethel on July 13,
members had a chance to examine
the handsome plaque awarded to
the Association by the Eastern
Federation of Mineralogical and
Lapidary Societies in recognition
of OCMGA's excellent record in
"Teaching by Sharing".

Some months ago, all Federation clubs
were invited to describe the ways
in which members share their
knowledge of and enjoyment of
gems and minerals. As a result of
this survey, the Eastern Federa-
tion decided that the educational
activities of the Oxford County
club came closer than any other
to meeting the ideal of "Teaching
by Sharing". The plaque awarded
by the Eastern Federation was
brought to Maine by Rudy Brad-
bury, Regional Vice President, and
was presented to OCMGA Presi-
dent Lewis Marcotte of Oxford at
the Western Maine Gem and Min-
eral Festival, Rumford Center on
July 9, 1977.

In addition to the plaque, the
Eastern Federation awarded indi-
vidual "Teaching by Sharing"
certificates to a number of OCM-
GA members in recognition of their
special contributions to the club's
program. Those so honored were:
Mr. and Mrs. George Bonney,
Norway; Mr. and Mrs. Norman
Davis, Newry; Mr. and Mrs. Donald
Eddy, Bethel; Gary Hutchin-
son, Carthage; Mr. and Mrs. Lew-
is Marcotte, Oxford; Mrs. Dorothy
Putnam, Rumford; Mr. and Mrs.
David Seaman, Norway; Mr. and
Mrs. Albert Spaulding, Dixfield;
Mr. and Mrs. Ralph Spencer, Rum-
ford; Mr. and Mrs. Henry Swan,
East Bethel; Mr. and Mrs. Nestor
Tamminen, Greenwood.

Letters to the Editor

July 18, 1977

To the Editor:

I would like to express to all
those involved with the production
of "13 Rue De L'Amour" a hearty
thanks for their fine efforts. It cer-
tainly was a promising beginning
to community theatre in the Beth-
el area. I hope other productions
will follow.

Sincerely,
Stanley R. Howe,

7/18/77

To the Citizen:

On behalf of the ninety-seven
bicycle racers who participated in
the Bethel Grand Prix this past
week end, I want to publicly
thank Police Chief Robert Stearns
and Deputy Sheriff Bill Williams
for the excellent job of traffic
control during the running of the
races.

The riders were very impressed
by the cooperation between the
race organizers, the police depart-
ment and the sheriff's depart-
ment. Many of them came to me
after the races and asked me to
convey their thanks to the gentle-
men responsible.

Sincerely,
Art Froburg

July 20, 1977

To the Editor:

I want to complain about where
the horses were placed in the
Molycock Day Parade. They
were placed way in back just
in front of the clowns. They zip-
ped around (which by the way they
are cute) making the horses very
nervous. Everyone I have talked
to said that the horses should
be up front or toward the front.

If anyone is so afraid of get-
ting their feet dirty why can't they
find a wheelbarrow and a couple
of willing boys. I hope the
committee will take into consid-
eration these beautiful animals
and next year put them up front
which they belong instead of plac-
ing them on the end as if they
were a bother to even have in the
parade.

DiAnne Leighton

To the Editor:

I find I must explain why last
fall's proposed tennis/basketball
facility construction did not come
to be. There were approximately
six possible sites within the town-
ship of Bethel proper, two of which
belong to the Bethel Inn, two be-
long to the Bethel Inn, two be-
long to private individuals. All of the
possible sites were found to be either
unacceptable to the federal re-
quirements or unavailable to the
town. The Bethel Inn's possible
sites received the most publicity.
Unfortunately, one was unaccept-
able to the Federal officials and
the other was ultimately unaccept-
able to the Inn. Consequently, it
was impossible to meet the filing
deadlines to apply for federal
funds.

No other sites have been found
for consideration at this time.

Sincerely,
Peter Kailey

MOLLYCOKETT DAY SPONSORS EXPRESS THANKS

Mollycoddett Day 1977 was a huge success. Everyone had a good time. As with all things which happen, they are the result of the work of many people, the majority of whom spend untold hours and even of their own money to see the event succeed. They are also for the most part seldom recognized or thanked by the public for whose sake the accomplishment of the deed itself has its rewards.

We would be remiss if we did not say a great big thank you to the Bethel Police Force, the Oxford County Sheriff's Department, and the BEARS who performed their job well and who too often get criticized but seldom praised. These people put in long hours and did it in such a manner that everyone was quite happy.

We appreciate the cooperation of the Bethel Board of Selectmen, the Bethel Town Manager in preparing the Common by adding trash barrels, draining the pool and clearing town streets. The use of Fred Burk's "Sunday River Tree Service" truck for hauling away the trash Saturday and Sunday was greatly appreciated by the Lions Club. John Greenleaf, electrician helped with the power hookups on the Common.

All of us appreciated the FIREWORKS but probably few realized the fact that the use of the

Bethel Inn golf course was a great contribution by the Bethel Inn. We all say thank you to the management and owners of the Bethel Inn.

Last but not least, all of us need to thank all the Church groups, the civic groups and all of the participants who set up booths, floats, costumes, sales, etc. which contributed to the overall activities on Mollycoddett Day.

GILEAD WOMEN'S CLUB
MEETS — BOOTH AT
MOLLYCKETT A SUCCESS

The Gilead Women's Club met on July 12 at the school house with all members in attendance. They were sad to hear another member was moving, Bertha Tyler will be missed by everyone and she is wished the best of luck. Annette Carver, another member, is now residing in Florida, she also will be missed.

Heard were the secretary's and treasurer's reports, thank you notes from those who had been in the hospital, and a thank you from Denis Corriveau who received the scholarship. Denis will be going on to school in the fall. Final plans were made for the booth at Mollyckett, as to who could work also who could help on Friday to put the booth together. It was decided that just the members would bake something for the booth also to each bring ice for the soda. Twenty-five cases of soda were purchased.

Mollyckett Report:
It turned out to be a beautiful sunny, and humid day. The soda sold this year, also there was no rain like last year.

The women would like to especially thank the ones who helped build the booth, Leon Ferrand and Anita, Hugh Chapman and Lin. Mildred McLean, Denis Corriveau Jr., Ted Taylor and Carol, David Taylor and Timmy and Chris Chapman. Also thanks to those who worked all day and in between. All your help was appreciated. Also thanks to those who patronized the booth. All the baked goods and most of the soda were sold.

The next regular meeting is set for Aug. 16, at 7:30 p. m. at the Gilead school house.

STATE OF MAINE
HOUSE OF REPRESENTATIVES

Karen L. Brown

The 108th legislature ended its statutory 100-day session near midnight Monday leaving 129 bills on the Governor's desk. We plan to reconvene for a one-day session on July 25th to act on possible vetoes by Governor James B. Longley.

I have two bills on the Governor's desk at present. LD 906 An Act to appropriate money for Revolutionary War Veterans Grave Markers. This bill would appropriate \$1,400 for the biennial 1978-79 to locate, record and mark graves of veterans of the American Revolution. LD 615. An Act to Authorize General Fund Bond Issue in the Amount of \$30,000,000 for planning, construction and equipment of pollution abatement facilities.

This bill would assist communities to meet their obligations under Federal and state water pollution abatement statutes. This program has been in existence since 1957. Bonding has been used as a source of state funds since 1964. Two bond issues for this purpose have been approved by Maine voters, one for \$25,000,000 in 1964 and the other for \$50,000,000 in 1969.

Municipal water pollution abatement facilities, interceptor sewers, waste treatment plants and outfall sewers are presently financed by utilizing 75% Federal grants; 15% State of Maine grants and 10% local funds. Failure to continue the 15% State grant would mean that the monies would have to be generated at the local level.

Following final adjournment of the Legislature on July 25, I will circulate a news letter to summarize the major legislation that will become law in October from this session.

Rev. and Mrs. B. F. Wentworth

REV. AND MRS. WENTWORTH
OBSERVE ANNIVERSARIES

The 60th anniversary of Rev. Bertram F. Wentworth was observed July 3 when more than 100 friends and parishioners attended the Sunday morning services at the Albany Congregational Church. The occasion was a double celebration because Rev. Wentworth and his wife, Mrs. Ruth Wentworth also observed their 54th wedding anniversary on that date.

The chancel was banked with flowers and miniature bouquets adorned the window sills of the sanctuary. Following the services the honored couple greeted their friends in an outdoor receiving line. Refreshments were served by Mrs. Alice Wardwell and her daughters, Jean and Jane. Mrs. Christine Kimball decorated a cake to resemble an open Bible.

The 81 year old pastor began his ministry in North Kittery. He was a graduate of the School of Theology of Boston University and did graduate work at Garrett Theological Seminary in Evanston, Ill. where he and his wife were both students.

In addition to parishes in Massachusetts, Illinois and Maryland, Rev. Wentworth served in the North Waterford, Oxford County United Parish in the Kezar Lake area, the Sebago Region, in Patten, Wilton, South Paris, Bolsters Mills, Westbrook, West Cumberland, Standish, Sebago Lake, Limington, Baldwin and in the Camden-Rockport area.

While the Wentworths were serving in Mapleton in Aroostook County, their daughter, Dorothy, was born.

The good shepherd of Albany—that is the role that Rev. Bertram F. Wentworth plays in his picturesque parish among the Oxford hills. This summer on July 3 parishioners and guests gathered in the little white church that he says is "on top of the world" and affectionately congratulated him on the occasion of his 60th anniversary of his ministry.

His 81 years rest lightly upon his shoulders and his blue eyes sparkle whenever he conceals an original pun or shares an amusing anecdote. His messages are cogent and filled with wisdom based upon religious verities. If the congregation wanders away from the tune of some of the more difficult hymns his strong voice leads them back.

He retired officially in 1963 but all that meant was that he and his wife could make their home in their Mechanic Falls home. From there they carry out their rural missionary work in the Albany, Waterford and East Stoneham area. How many lonely souls they cheered as they visited remote homes, how many invalids were happy to welcome them by their bedside. For this 81 year old pastor, retirement enables him to walk the extra mile with troubled ones. He could rest upon his well earned laurels but that is not for him who keeps eagerly on anxious to see what is beyond the next rise.

Since his retirement in 1963, Rev. Wentworth has preached for extended periods in many of his former parishes. This is his eighth summer as the pastor of the Albany church.

Both he and his wife have been active in religious education work. For 40 years Mrs. Wentworth has taught music in her home and in public schools where she has also conducted school classes. She continues this work in the Wentworth residence in Mechanic Falls.

Rev. Wentworth has written a definitive history of the Methodist movement in Maine. Last summer he wrote a pageant that was produced at the Methodist campground in Poland. For 13 years he has been president of the Retired Ministers in the Methodist Conference and for 15 years he was secretary of the Town and County Committee of the Conference.

Mrs. Wentworth is a former president of the District Women's society.

BRYANT POND GIRLS'
STANDINGS 7-1

The Bryant Pond Girls' softball team went to 7 and 1 after two more wins. On June 27 they defeated the Rumford Point A team with a score of 22-8. Then on June 30 they won again over the Rumford Point B team with a score of 33-10. The winning pitcher in both games was Lynda Duquay.

No games were scheduled during the week of July 4. A home game, scheduled with Rumford on July 12 was cancelled due to rain and the July 15 game with Mexico was cancelled due to lack of players for the Mexico team.

This week Bryant Pond plays at Mexico on July 20 and with the Rumford B team on July 21. Scheduled next week are two at home; July 26 with West Paris and July 28 with Dixfield. The makeup with Rumford will be at the big ballfield in Bryant Pond on Saturday, July 23, at 9:30 a. m.

Clarice Gibson, Corres.

Our road, as well as Bethel, got quite a thunderstorm Wednesday about supper time. It struck a big pine not too far from our turn and made a crack the whole length as though some one had either thrown a huge ax or driven a massive wedge into it. A ball of lightning rolled down the far road presumably heading for the river. The Labans lost both their upstairs and downstairs TV some time during the storm and as their dog had gotten run over earlier in the day, imagine that they were glad to see the day end.

Am not sure if this is a true story or not but it was supposed to be. It seems I had a great-uncle who was deathly afraid of thunder showers. After a severe storm he got up into the middle of the kitchen floor and said "My G— you didn't get me that time." Just then a bolt of lightning entered the kitchen and knocked uncle over and he landed underneath the kitchen stove.

Mr. and Mrs. Paul Halle and two children from Lisbon Falls visited her aunt and husband Mr. and Mrs. George Gilbert a week ago.

Mr. and Mrs. Daniel Hammon and children, Mary Beth and Amy went camping in Plymouth Sands, N. H., over the 4th. This was a reunion with other classmates.

Bruce Keenan and fiancée from Gorham, N. H., visited his aunt and husband, Mr. and Mrs. Alden MacDougall July 8.

Mr. and Mrs. Homer Smith Jr. had vacations from their jobs also last week. Andy broke out with German measles Sunday but was ok by Thursday so they all went to Poppon Beach and enjoyed themselves.

Mr. and Mrs. Frank Ayiward are in Maine for the summer. Alicia Ayiward is now working in Hartford, Conn.

The Ms's Lee Einzig, Sally Clay and Ms Clay's daughter, visited Ms Einzig's parents, Mr. and Mrs. L. Hasser Einzig, the first part of July. They also went camping at Duck Puddle Camp Ground in Nobleboro, on Pemigewasset Lake the week end of July 10.

Victor Coolidge was best man at his nephew Peter Jean's marriage to Susan Ellsworth at South Paris Congregational Church July 2. The reception was at Bryant Pond Grange Hall.

Mr. and Mrs. Thomas Gibbs left June 30 for Braintree, Mass., to visit friends and from there went to Suffield, Conn., to visit her folks. They arrived home July 9 and brought her sister, Karen Coulter, back for a visit.

Gerry Shimamura left Friday, July 8 by bus from Portland to Brockton, Mass., to visit Rev. and Mrs. Robert Jackson and family. She brought back one of Jody's friends, Kevin Kingsbury, from Hanover, Mass., who will be staying two weeks with the Shimas.

A 50th anniversary party given by Mrs. Barbara Scott, honoring her parents, Mr. and Mrs. Manuel Enos, June 18, at her home was in the form of a picnic. Everyone enjoyed char-broiled steaks, salads, desserts and all kinds of beverages.

It was attended by all of their children, Mrs. Selma Morgan Lobo, Santa Maria, Calif., Mrs. Emily Hanson, North Hampton, N. H., and Manuel E. Enos, Jr., from Nashua and Pittsboro, N. H. AUCTION - BARBECUE TO BENEFIT ANDOVER CHURCH

Pictured above is the First Congregational Church of Andover. The church was organized by early settlers on Nov. 8, 1800. The present building was completed in 1851.

The first minister was paid a salary of \$160 annually for his services, \$30 in cash and \$130 in labor and produce.

At one time there were both Methodist and Universalist churches in Andover. In 1871 a Methodist Church was built, which has since been torn down.

The Universalist Church secured a lot of land and started building in 1897. In 1934, not having been used for many years, it was presented to the town for a library.

In October of 1964 the Calvary

Congregational Church was formed. In October, 1973, their new church was dedicated at South Andover.

The Congregational Church has continued through the years. In 1917 substantial repairs were made: electric lights, new furnace and a hardwood floor. The most outstanding addition was a new pipe organ, one of the largest and best in the area.

On Oct. 22, 1967, the new Christian Education Building was dedicated. The pastor at this time is Rev. David Wuori.

The Auction sponsored by the church is to be held on the Town Common, Aug. 6. The bidding will begin at 4 o'clock with the chicken barbecue from 6 to 7. The auction will continue with the sale of the leaf patterns, look at the beauty of the rocks, the comforting feel of the new flowers.

The sun was bold and warm, the distant hills lovely and green and gold. Sleeping in the cellar viewed the roses growing while in the fields, in grass, thick wild flowers out our feet. THE MIRACLE OF THE CROSS

by Dr. J. Philip Jackson, Rumford Center

The Christian's reality, centrality and finality should be in the cross of Christ. The cross is the vindication of God's violated law and a revelation of His unconquerable love.

Kings have rejected it, religions trampled it, false prophets perverted it and dictators tried to obliterate its memory, but still it stands erect and exalted. It was a tower of strength to the martyrs, a refuge and revelation to the saints and will be the theme of heaven.

The Apostle Paul said: "God forbid that I should glory, save in the cross of our Lord Jesus Christ, by Whom the world is crucified unto me, and I unto the world."

We spend much time boasting and glorying in our earthly successes, but one true look at the cross of Calvary disconcerts of life's priorities.

The cross divides the world from the true child of God. The cross is truly ecumenical - it cuts out competitive denominationalism. You cannot accept the Christ of the cross and at the same time reject the cross of the Christ. I know that the preaching of the cross is out of date, BUT IT IS NOT OUT OF THE BIBLE!

Thomas Starr King, a Unitarian, said of Christ's atonement: The doctrine of the vicarious atonement is embodied in the holiest memories, as it has been consecrated by the loftiest talent in Christendom. It fired the fierce eloquence of Tertullian in the early church, and gushed in honored periods from the lips of Chrysostom; it enlisted the lifelong zeal of Athanasius to keep it pure; the sublimity of it fired every power and commanded all the resources of the mighty soul of Augustine; the learning of Jerome and the energy of Ambrose were committed to its defense; it was the text for the subtle eye and analytic thought of Aquinas; it was the pillar of Luther's soul; toiling for man... it kindled the deep and steady rapture of Wesley's heart.

A real revival will bring us back to the centrality of Calvary. It is a convincer of sin, a bringer of blessing, a means of for-

YOUR BACK & YOUR HEALTH

Stephen Garbarini, D.C.

"Surprise" benefits of chiropractic ask most people what chiropractic is and what it can do, and they probably say that it's a method of treating back problems. They're right, of course; Chiropractic does deal a lot with back strains and sprains. But that's only part of the story.

Every chiropractor can tell you many cases in which patients derived surprise benefits. A man comes in to seek help for an aching back and finds to his delight that not only the back feels much better but the chest pains he's endured are eased considerably. A woman whose back was adjusted happily reported that her migraine headaches went away, as well.

Such things are not at all surprising to the chiropractic practitioner. While his intensive training seemingly equips him to apply his skills to back problems, he knows that the nerves that branch out from between the vertebrae either directly or indirectly serve bodily functions.

When one of those moveable vertebrae is out of position, it can dramatically affect the nerve and the organ. So when the chiropractor adjusts the spine—moves the vertebra back to where it belongs—a lot more than the back itself can benefit. And that, really, is the whole basis of chiropractic.

giveness and an impartor of life. "In the cross of Christ I glory, towering o'er the wrecks of time!"

Looking out the window at early dawn I have learned, somewhat, how to judge the day. Gray light at dawn doesn't always mean a gray day. Some mornings the fog hangs heavily, blotting out the hills then the sun pushes its way up into a cloudless day. Often over our pond we watch the fog change from dull gray to gold to pale green as the day comes on. The threat of rain passes and the day is beautiful.

Other mornings the sun hits the hill tops in the west as it pushes above Noyes Mountain in back of our cabin. I then know that the sky is high, clear, and the day will be warm.

Our windows smile at such a summer day and from all around come the whisper of the wind, the hum of the bees, and the choruses of the birds.

On a day like this it is hard to remain indoors, so as afternoon came, Ruth and I set out up Noyes Mountain. We had no special place in mind to go; just to walk, watch the cloud ships, note the leaf patterns, look at the veined beauty of the rocks, enjoy the comforting feel of the moss, and see the delicate beauty of wild flowers.

The sun was bold and lovely upon the distant hills and wove shadows and on the forest floor a rug in green and gold.

Stopping at the cellar hole we viewed the roses growing free while in the fields, in the tall grass, thick wild flowers blew about our feet. "The flowers are nature's jewels, with whose wealth she decks her summer beauty,"

—Croy. All these flowers, born wild as untamed as newborn stars. They run through the clover, kissed by the sun or tossed in the breeze.

When reaching the third field up, we went right, through the gap in the stone wall used by the snow travelers in the winter. Then we took a path through the birches and on to the Garland Place.

We heard the bird songs. "Oh, song that leaps like streams on mountain stones. There is a rippling buoyance in your tones, like laughing children playing in the sun. Without a care to daunt their sparkling fun." — Gail Brook Burke.

Above us the branches entwined forming a green canopy, making it cool underneath. Here and there were blue windows through which we peeped into endless space.

Above looking around, especially in the old forsaken cemetery where few stones are standing we took an old logging road back down the hill until we again came to the fields and flowers and the view of the distant mountains. We especially spoke of East Baldpate where we once climbed.

We had again traveled to a peaceful spot where we could stop and reflect and look into life's deeper meaning.

North Paris

— Eveline Barrett, Corres. —

Thank God for little shade trees and swimming holes. This must be our summer for sure. Bethel never had it so good and hot. We had planned to go to the Mollycodd Parade, but when we looked at the thermometer, we vetoed that.

We extend the sympathy of our community to the family of Mrs. Jennie Heath. She lived here many years ago, when she and her son moved to Mr. and Mrs. Walter Bennett's home.

Mr. and Mrs. Richard Andrews have a different car.

Saturday, Mr. and Mrs. Root Lawrence visited Mr. and Mrs. Dwight Oldham, West Peru, Mr. and Mrs. Norman Abbott and family, Mexico.

Eino Kangas who used to operate a large hen farm on top of Trap Corner Hill, passed away Saturday morning.

Mr. and Mrs. Lionel O'Brien were at their farm this week end and found that some one had been in the big barn and the door was off the track.

Jeff Coffin visited two days at the Lawrence's. Other callers were Mr. and Mrs. Peter Collett, Dot Smith, Lloyd Huntley, Mr. and Mrs. Joe Kalinowski, Mr. and Mrs. Linwood Birney, Mr. and Mrs. Peter Lawrence, Mr. and Mrs. Norman Abbott, Donna, Jimmy, JoAnne.

This is a nice hot day to go to the doctor, but somehow Joe has a shiny black left big toe. Don't know what happened, unless he stepped on it.

Until next week watch the thermometer!

North East Lovell

— Pauline Smith, Corres. —

A large crowd attended the service at Lovell Village Church. It will continue through July. Everyone is welcome.

Linda Allen, Nancy Barker and children called on Iva Fox Monday night. Other callers through the week were Mary Fox, three children, Rose Mary Smith, Ada Mallia.

Helen Varner visited Hazel Allen this week, calling on friends in Lovell.

The Ed Josephs and friends were at their home for a few days. Charles Merrill is haying for different ones. Hope he has time for my mowing. Sure help on my mowing bushes.

There was a large crowd at the Weisern Fire Association. Plenty of food, even selling pies I heard after the supper.

Pauline and LeRoy Smith spent the week end at Wentworth Location, calling on our few friends left. Have been going up that way for 25 years. Some of our oldest friends are gone and we miss them.

Mr. and Mrs. LeRoy Smith called on their daughter in Oxford on Monday.

THANK YOU to the person who hit my car and told me.
